

MORE THAN JUST A TELEPHONE.

M SERIES BLUETOOTH

A game-changer in desktop telephony and in-room connectivity.

M SERIES BLUETOOTH

ANALOG CORDED

M Series Bluetooth analog corded phones keep guests connected via Bluetooth pairing to stream sound and place/receive calls over their own cell network, and charge smart devices. A high performance stereo sound system replaces stand-alone audio playback devices in the room to save space, and empower enhanced guest telephone speakerphone calls and conferencing. Available with 5 or 10 programmable guest service keys, patented OneTouch voice mail retrieval, and a fully integrated plastic silk-screen faceplate module.

Bluetooth

Pair smart devices to play music and place and receive mobile phone calls through M Series.

USB Charging

Two high-current USB charging ports support devices up to 2.1 Amp, including most tablets and smartphones.

Stereo Speaker System

High-fidelity stereo speakers ensure a quality listening experience for the guest.

OneTouch Voice Mail Retrieval

Automatically engages the phone's speaker and auto-dials voice mail which enables guests to check messages hands-free.

Bluetooth Data Specifications

- Bluetooth version 2.1 + EDR (Enhanced Data Rate)
- Profile A2DP (Advanced Audio Distribution Profile)
- Class 2 type range of 10 meters using 2.4 GHz frequency band and auto-connect

USB charging ports for phones and tablets.
